## FOREWORD

***Prime Contract Awards by State*** is published annually.

This publication provides information on Department of Defense procurement awards. The data are broken down into three categories:

1. Total U.S. Awards;
2. Awards Not Distributed by State; and
3. Total State Awards, which is further divided into separate totals for each state.

### **IMPORTANT - PLEASE NOTE:**

**This is the last printed edition of the *Prime Contract Awards by State* publication.** In accordance with the November 1997 Defense Reform Initiative to move to paper-free business operations, future editions of this publication will only be available through the Internet. All tables of the publication will be posted on the DIOR web site on an annual basis and available for "print on demand" by the users. The DIOR web site address for locating this publication is: <http://web1.whs.osd.mil/diorcat.htm>.

## INTRODUCTION

**Prime Contract Awards by State** provides a wide variety of information on all Department of Defense (DoD) procurement awards. Both military and civil function (i.e., U. S. Army Corps of Engineers -- Civil Works) procurements are represented. The data are presented by state and include the net value of procurements awarded to each state as well as each state's percentage of the total for all state procurements.

The total net value of procurement awards for fiscal years (FYs) 1997, 1996, 1995, and 1994 are shown for all of DoD in Table 1, page 5, and for only the Military Components in Table 2 on page 6. The total net value of military procurement awards for FY 1997 (presented in Table 2) are displayed according to Defense Component in Table 3 on page 7. Table 4 is reserved for future use. Data on the total net value of civil function procurement awards for FYs 1997, 1996, 1995, and 1994 are provided in Table 5 on page 8. Table 6, page 9, displays county data within each state by DoD Component (including Civil Function) for the latest fiscal year.

Selected information from this publication can be found on the World Wide Web under <http://web1.whs.osd.mil/peidhome/geostats/p09.htm>.

### NOTES ON COVERAGE

Data in this report reflect the net value of debit and credit procurement actions over \$25,000, (i.e., terminations, price changes, or other downward adjustments are deducted from a contractor's total award amount, while modifications and other positive adjustments are treated as increases). If the debit amount exceeds the credit amount, a negative sign is placed to the right of the net amount displayed. Procurement awards include definitive contracts; the obligated portions of letter contracts; and job orders, task orders, delivery orders, or any other orders against existing contracts. Contracts for research and development, services, construction, and supplies and equipment are also included. Contracts awarded by DoD to other U.S. Government Agencies as intragovernmental orders and foreign military sales (reimbursable sales to foreign governments) are also included.

The database from which information for this report is collected does not include data on those parts of indefinite quantity contracts (except for petroleum products) that have not been translated into specific orders to businesses, those contracts that have not yet become mutually binding agreements between the government and the contractor, or prime contracts awarded by other U.S. Government Agencies and financed with DoD funds.

## **TOTALS**

The United States total in the tables includes all contracts awarded for work performed in the United States. The United States, as used here, includes the 50 states, the District of Columbia, and the outlying areas of the United States. The United States outlying areas include American Samoa, the Federated States of Micronesia, Guam, the Marshall Islands, Northern Mariana Islands, the Trust Territory of Palau, Puerto Rico, the U.S. Minor Outlying Islands, and the Virgin Islands of the United States.

The subtotal "NOT DISTRIBUTED BY STATE" includes all contract awards of \$25,000 or less for performance in the United States. This subtotal also includes all contract awards, regardless of size, for performance in the United States outlying areas and all contract awards for performance in classified locations.

State subtotals include the net value of procurement awards over \$25,000 awarded to each state and the District of Columbia.

## **LOCATION OF CONTRACTS**

Contract work is not necessarily performed in the state where the contract is awarded. Most manufacturing contracts have been attributed to the contractor's location where the product will be processed and assembled. When contract work has been performed at more than one plant, the contract has been attributed to the location where the largest dollar amount of work was produced. Both construction and service contracts have been attributed to the state where the work is to be performed. Contracts for transportation and communications services have been attributed to the state where the contractor's home office is located. For purchases from wholesale or other distribution firms, the location is the contractor's business address.

## **HIGHLIGHTS**

The total United States prime contract awards during FY 1997 totaled \$120,800.4 million, a decrease of \$4,224.9 million or 3.4 percent from FY 1996. The state showing the largest dollar amount of change for FY 1997 was Missouri with a decrease of \$2,326.8 million or 32.8 percent from FY 1996. Last year the state of Missouri had an increase of \$1,245.5 million or 21.3 percent when compared with FY 1995 obligations. Most of the obligated FY 1996 increase could be attributed to an Air Force contract action for more than \$3 billion related to the production of 72 F-15S aircraft. This year the state with the second largest dollar amount of change was Virginia with an increase of \$1,624.6 million or 17.0 percent. Last year the state of Virginia had a decrease of \$2,574.7 million or 21.2 percent when compared with FY 1995 obligations.

In FY 1997, procurement increased in 21 states and the District of Columbia (median increase \$132.9 million) and decreased in 29 states (median decrease of \$93.9 million). Overall, the average and median change of procurement for all states in FY 1997 were a negative \$55.8 million and a negative \$20.4 million, respectively. The following ten states had the largest amount of procurement award dollar change from FY 1996 to FY 1997 (shown from largest increase or decrease to smallest increase or decrease):
